

Art Project: My World

This project can be interpreted in a number of ways, for example:

- Documenting things that affect your life: family, friends, hobbies, events
- Looking at self image: portraits, items that represent you

Try and focus on one person so the project develops a theme

For this project you will submit a mix of 20 images from the list below

A collection of images which relate to you these could be collected family photographs, drawings and/or photographs of objects, maps of places relevant to you, letters, postcards, etc. Your mix could be 8 photos of your gran, 4 drawings of her jewellery, 6 letters she sent to your grandfather, a map of her childhood home and a list of relevant dates.

Two short paragraphs about your work

The first paragraph explaining why you have chosen to draw/collect these particular objects/ images. The second evaluating your images. What went well? What could you improve about your collection?

In September you need to bring your images collected and drawn to your first lesson. You also need to buy a spiral bound **good quality** sketch-book size A4 or bigger.
